SUMMARY

I focus on Frontend Development. I love the design and making a product better. REACTJS has been a quick gamechanger for me. My approach is plain/simple: I don't plan to reinvent the wheel or impress you with over-engineering. I am a quick learner and I love navigating new frameworks & libraries.

SKILLS

Languages

- Javascript
- HTML
- CSS

Tools

- ReactJS, NextJS
- Context, Redux
- Webpack
- SASS, SCSS

Performance & Testing Frameworks

- Jest
- ReactTesting Library

Backend

- Learning google cloud techs.
- Fiebase (Cloud API, Firestore)

Design

- Figma

Version Control Systems

- Git & Github

PROJECTS

• WEATHER APP

I built a functional weather app that not only do basic weather info. You can change location, fahrenheit to celcius, 5 days forecast wether, humidity by percentage. Fully responsive and functional.

Skills: ReactJS, HTML, SASS, Axios, Iconify, Git, Github

Github: www.github.com/erendoru/Weather-App

Demo: <https://weather-app-eight-chi.vercel.app/> -- WeatherAPI ended due to this problem it does not load data properly

• TWITTER CLONE

With new technologies on ReactJS I made a fully responsive and functional twitter clone.

Skills: NextJS, Storybook, PostCSS, Style Loader

Github: www.github.com/erendoru/twitter-web-react

Demo: <https://twitter-clone-silk-eta.vercel.app/>

• CORONA TRACKER APP

Using covid19 api and ReactJS I made a covid19 data tracker app.

Skills: ReactJS, Axios, ChartJS, Html, Css

Github: www.github.com/erendoru/corona-tracker

Demo: <https://corona-tracker-example.vercel.app/>

AREAS OF EXPERTISE INCLUDE:

- UI Designing
- Coding
- Application Designing
- Debugging
- Performance Improvement
- Feature Designing
- Webpage Optimization
- Webpage Designing

• TRAVEL WEBSITE EXAMPLE

Using ReactJS I made fully responsive travel agent website.

Skills: ReactJS, Javascript, HTML, CSS

Github: [www.github.com/erendoru/React-website-example](https://github.com/erendoru/React-website-example)

Demo: <https://react-website-eta-orcin.vercel.app/>
